Dear Hiring Manager,

I am writing to apply for the position of Web Designer, which was advertised online at Ontario Public Service Careers.

Over the years, I've gained a Bachelor's Degree in Industrial Design at Bucheon University in Korea. In University, I learned not only overall graphic design skills but also, program tool skills such as Photo-shop, Illustrator, and InDesign and also studied UI and UX design. Upon graduating from university, I gained professional experience with 3 years at a signage & graphic design company called "Dream Design", with the recommendation of a professor, and experienced various design projects which are hospital branding design including logo, indoor and outdoor signage, stationery design at the company, growing a lot as a Graphic Designer.

This professional experience has helped me improve my responsibility to lead a design project. From the initial scoping meeting with the client through to design and construction, the experience I gained by leading the project from start to finish helped me obtain leadership, planning, and communication skills.

Having a desire to work in the field as a web designer further, I am currently studying Web Design & Development at Humber College. By the time I graduate from this course I intend to have a high understanding of both graphic and web/app design. I am now able to create a website using HTML, CSS, and JavaScript from my learnings at Humber College.

Highlights of my skills include:

- Website, UX and GUI Design and Web Development: I am able to design a website from scratch.
- Create Interactive Media and Logo design
- Print and Digital Graphic Design: Logo, Stationery, Poster, Advertisement design
- Signage Design: Indoor and outdoor signage design, Banners, Flags

I believe I am a good fit for the role at the Legislative Assembly as I not only have the correct skills to carry out the work, but I also have experience in working with various clients and coworkers from different backgrounds in my previous job.

I would love to find out more about this amazing opportunity at Ontario's Legislative Assembly and let you know how I could benefit your organization.

Thank you for considering my application. I look forward to hearing from you.

Yours sincerely,
Jinny An
